Immune

## Aller-C

### Quercetin, vitamin C & bioflavonoids with pure uncut bromelain

Aller-C contains nutrients that are used to support an overactive immune system and a healthy inflammatory response.

#### Ingredients:

##### Each capsule typically contains:

Vitamin C (as ascorbic acid)	450 mg
Quercetin dihydrate	250 mg
Bioflavonoids 60% (citrus)	150 mg
Bromelain 2400gdu	50 mg

##### Other Ingredients:

Gelatin capsule  
Ascorbyl palmitate

#### Features:

Aller-C features quercetin, which helps to support healthy histamine levels, and has demonstrated potent antioxidant activity, with the ability to potentiate the actions of vitamin C.

Features a 60% bioflavonoid complex, which will also synergistically potentiate the antioxidant potential of vitamin C, and support the strength of capillaries.

Features pure, uncut, bromelain, an enzyme derived from pineapple, which helps to support healthy nasal and respiratory airways. Bromelain also has the added benefit of increasing the absorption of quercetin, both supporting the body's inflammation response and histamine processes.

**Recommendation:** 2-3 capsules two to four times daily between meals, or as directed by your healthcare practitioner.

**Caution:** None known if directions are followed.
