

Product Information Sheet

Herbals

Ginkgo Biloba Extract

V Ve

Standardised Herb

A herbal formulation standardised to provide potent antioxidant support for the cerebrovascular environment. Helps to support healthy cognitive function and eye health.

Ingredients:

Each capsule typically contains:

Ginkgo Biloba Extract 40 mg
[standardised to 24% Ginkgo flavone glycosides]

Encapsulated with:

Gelatin
Microcrystalline cellulose

Features:

Ginkgo has been well-researched in many scientific studies for its antioxidant properties and for its effects on the microcirculation.

Thus, areas of the body with decreased circulation and increased free radical stress like the brain or the retina may benefit most from the balancing effects of Ginkgo biloba.

Ginkgo biloba extract contains two groups of active constituents: the ginkgo flavone glycosides and the terpeno lactones; the former support antioxidant balance while the latter support microcirculation.

Recommendation: 1-3 capsules daily with food, or as directed.

Caution: Consult with a medical doctor if on anti-coagulant medication.

Product Code: 1716

Package Size: 60
