Adrenal Support

Nutri Adrenal Extra

High Potency Adrenal Concentrate with Synergistic Support

Nutri Adrenal Extra provides a high potency adrenal supplement combined with nutrients that are involved in hormone regulation, to help support the normal functioning of the adrenal glands. The adrenal glands are largely responsible for the hormonal response in stress adaptation. The majority of pregnenolone, cortisol and DHEA is made in the adrenal glands, as are the hormones epinephrine and norepinephrine. Because of this, optimal health depends on optimal adrenal function.

Ingredients:

Each tablet typically contains:

Vitamin C (ascorbic acid)	150 mg
Pantothenic acid (d-calcium pantothenate)	60 mg
Vitamin B1 (thiamine HCl)	20 mg
Vitamin B2 (riboflavin)	20 mg
Vitamin B6 (pyridoxine HCl)	20 mg
Vitamin B3 (niacinamide)	20 mg
Magnesium (citrate)	75 mg
Zinc (ascorbate)	3 mg
Chromium (picolinate)	40 µg
Bioflavonoids	40 mg
Choline (bitartrate)	20 mg
Adrenal concentrate	200 mg
Pituitary	15 mg

All glandulars are of bovine source from New Zealand

Tableted with:

Dicalcium phosphate
Microcrystalline cellulose
Silicon dioxide
Stearic acid
Magnesium stearate
Caramel

Features:

Adrenal concentrate helps to support healthy function of the adrenal glands.

Pituitary concentrate helps support healthy function of the pituitary gland. The pituitary in turn is the higher centre that helps govern the functioning of the adrenal glands.

Vitamin C and pantothenic acid (vitamin B5) are found in high concentrations in healthy adrenal glands.

Bioflavonoids potentiate the antioxidant activity of vitamin C.

B vitamins are critical for blood sugar and energy balancing and may become depleted during times of high physical and emotional stress.

Chromium is part of the glucose tolerance factor, which supports the action of insulin at the cellular level.

Zinc also helps support pyruvate levels for energy production.

Recommendation: 1-2 tablets daily with food, or as directed (do not take after 1pm).

Caution: Not recommended during pregnancy.
