Gastrointestinal Support

## Nutrigest

### Hydrochloric Acid with Pancreatic Enzymes

Nutrigest is a potent combination of hydrochloric acid (HCl), digestive enzymes and ox bile to help support digestion in the stomach and small intestine. As we age and in acute or chronic illness, our bodies produce less HCl, necessary to denature proteins and begin the digestive process. HCl production also maintains a low pH in the stomach, thereby performing a vital role in supporting immune function. Pancreatic enzymes are necessary for the complete breakdown of carbohydrate, fat and protein molecules.

#### Ingredients:

##### Each two-phase tablet typically contains:

Betaine HCl	150 mg
L-Glutamic Acid HCl	100 mg
Papain	50 mg
protease (from papain)	800,000 PU(2)
Pepsin (porcine) 1:10,000	10 mg
Pancreatin (porcine) (8x)	75 mg
amylase	15,000 USP(1)
protease	15,000 USP(1)
lipase	1200 USP(1)
Amylase [1200 SKB(4)]	30 mg
Bromelain	30 mg
protease (from bromelain)	36 GDU(3)
Ox Bile (bovine*)	70 mg

\*Bovine source from New Zealand

1) United States Pharmacopeia 2) Proteolytic unit according to the FCC (food chemical codex) 3) Gelatin digesting unit 4) Standtedt, Kneen and Blish method

#### Tableted with:

Dicalcium phosphate  
Microcrystalline cellulose  
Stearic acid  
Silicon dioxide  
Coating (polyvinyl alcohol, talc, polyethelene glycol, polysorbate)

#### Features:

Hydrochloric acid (HCl) denatures dietary proteins and facilitates the digestive action of enzymes. HCl also stimulates the pancreas to secrete more digestive enzymes when released into the duodenum from the stomach.

Pancreatin is combined with pancrelipase providing a mixture of pancreatic enzymes that help break down protein, fats and starches.

Amylase digests fats and starches.

Ox bile helps in the emulsification of dietary fats and subsequently improves absorption.

#### Recommendation:

1 tablet at the onset of a meal, up to three times daily.

#### Caution:

Not recommended for individuals with gastritis or ulcers.  
Do not chew or break the tablet. Tablet must be swallowed whole.

**Product Code:** 3208

**Package Size:** 90
