

Product Information Sheet

Gastrointestinal Support

Gall Plus

Ox Bile & Black Radish Complex

A specialised complex containing bile salts, glandulars, other nutrients and herbs, which help support the health of the liver and gall bladder and assist in the emulsification and absorption of dietary fats.

Ingredients:

Each tablet typically contains:

Vitamin B1 (thiamin hydrochloride)	2 mg
Vitamin B2 (riboflavin)	2 mg
Vitamin B3 (niacinamide)	5 mg
Ox Bile concentrate (bovine)	135 mg
L-Glycine	50 mg
Pepsin (porcine)	30 mg
Liver (bovine)	30 mg
Black radish root	20 mg
Pancreas (porcine)	20 mg
Red beet root powder	25 mg
Lecithin	150 mg

All bovine source glandulars are from New Zealand

Tableted with:

Dicalcium phosphate
Gum acacia
Microcrystalline cellulose
Silicon dioxide
Magnesium stearate

Features:

Ox bile concentrate, liver and pancreas tissue concentrates help to support the functioning of these glands.

Niacinamide is important for supporting a healthy cholesterol level.

The amino acid glycine is involved in the emulsification of fats.

Red beet and black radish have been used traditionally to help support a healthy liver.

Lecithin contains high levels of phosphatidylcholine, essential for cell membrane health and for supporting healthy fat transport and metabolism in the body.

Recommendation: 1-3 tablets daily with meals, or as directed.

Caution: Safety has not been established in pregnancy or whilst breastfeeding.
If taking medication, seek the advice of a medical practitioner.
