### Eye Care Support Formula with Lutein, Zeaxanthin and Bilberry

Vision Plus is a potent combination of vitamins, minerals and antioxidants to support eye health – it includes vitamin C, zinc and copper, together with carotenoids important for eye health – lutein and zeaxanthin. It also contains good levels of taurine, lipoic acid and bilberry – powerful ingredients to support the health of the eye.

#### Ingredients:

##### Each 3 capsules typically contain:

Vitamin C (ascorbic acid)	500 mg
Vitamin E (d-alpha tocopheryl acetate) (400 IU)	266 mg
Zinc (citrate)	25 mg
Copper (citrate)	2 mg
Lutein (from marigold)	10 mg
Zeaxanthin (from marigold)	10 mg
L-Taurine	200 mg
Lipoic Acid	100 mg
Bilberry (4:1 extract)	300 mg

##### Other ingredients:

Dicalcium phosphate  
Silicon dioxide  
Magnesium stearate

#### Features:

Features 500mg vitamin C, together with zinc and vitamin E, nutrients studied extensively for their role in eye health.

Lutein is an important carotenoid found to be concentrated on the outer edges of the macula, whereas zeaxanthin dominates the central macula. Both work as antioxidants, helping to protect against oxidative stress. They also help to protect against high energy light.

Provides 200mg taurine, of which high concentrations are found in the retina. A deficiency of taurine can lead to significant alterations in the structure and function of the retina.

Also provides lipoic acid and bilberry – important antioxidants that help to protect against free radical damage.

**Recommendation:** Take 3 capsules daily, or as directed.

**Caution:** Consult with a medical practitioner if on anti-coagulant medication.

**Contains Ingredients Derived From:** Soy

**Product Code:** 3290

**Package Size:** 90
