D3 Drops 1000

V

Liquid Vitamin D Formula

D3 Drops 1000 is a liquid vitamin D formula that allows convenient, flexible dosing. Each single drop provides 1000 IU of the preferred form of vitamin D, cholecalciferol.

Ingredients:

Each one drop contains:

Vitamin D3 (cholecalciferol)

1000IU (25 µg)

Other ingredients:

Deionised water
Glycerin
Polyethelene glycol
Natural flavour
Vitamin E
Potassium sorbate
Lactic acid
Ascorbic acid

Features:

Vitamin D has a multitude of biological functions in the body which may help to support cellular health, immune function and healthy inflammatory processes, as well as supporting bone health.

Vitamin D3 (cholecalciferol) is the preferred form of supplemental vitamin D as this is the form produced by the skin in response to sun exposure.

D3 Drops 1000 is a pleasant tasting liquid formula, with a natural strawberry flavour.

Recommendation: 1-5 drops daily. Can be mixed into water or juice as desired.

Caution: None known if directions are followed.

Product Code: 3400

Package Size: 28ml
