Probiotics

## Probiotic Plus

**V Ve**

### Probiotic Formula with Enzymes

Probiotic Plus contains an exclusive blend of probiotics and provides 750 million viable organisms per capsule. <<ITon>>Lactobacillus<<IToff>> and <<ITon>>Bifidobacterium<<IToff>> have been complemented by five additional bacterial strains, including <<ITon>>L. rhamnosus<<IToff>> and <<ITon>>L. plantarum<<IToff>>, which provide an excellent blend for an optimal bacterial micro-environment in the

### Ingredients:

#### Each capsule typically contains:

Beta-galactosidase (147 LacU)	16.36 mg
Bacterial Powder (750 million viable organisms)	12.50 mg
Providing:	
B.bifidum	
L.acidophilus	
L.rhamnosus	
B.longum	
B.infantis	
B.adolescentis	
L.plantarum	
Amylase (672U)	11.79 mg
Cellulase (25U)	0.83 mg

#### Encapsulated with:

Ascorbyl palmitate  
Gelatin  
Maltodextrin  
Microcrystalline cellulose

### Features:

The main friendly bacteria, which are part of the normal flora of the human intestine, are <<ITon>>Lactobacilli<<IToff>> and <<ITon>>Bifidobacteria<<IToff>>. Numerous species of these bacteria grow together synergistically to support an optimal healthy bacterial balance in the large intestine.

The bacteria are combined with enzymes to support digestion of complex carbohydrates and starches to promote improved bacterial growth.

Beta-galactosidase catalyses the hydrolysis of lactose (milk sugar) to glucose and galactose. Persons with lactose intolerance lack adequate amounts of beta-galactosidase.

**Recommendation:** 1-2 capsules twice daily, or as directed.

**Caution:** None known if directions are followed.

**Product Code:** 3401

**Package Size:** 60
