

Product Information Sheet

Female Health

Nutri Female

Female Endocrine Tissue Concentrates With Vitamins and Minerals

The monthly cycle of ovulation and menstruation is controlled by a complex interaction of hormones from the pituitary, ovary, thyroid and uterus. Nutri Female supports healthy hormone balance in women of all ages, through child bearing age and beyond. As a woman reaches her 50's, ovary function declines. Nutri Female also provides support for the female endocrine system at this stage of a woman's life.

Ingredients:

Each tablet typically contains:

Vitamin C (ascorbic acid)	100 mg
Ovary	80 mg
Vitamin B3 (niacinamide)	50 mg
Manganese (glycinate)	5 mg
Vitamin E (d-alpha tocopheryl succinate)	41 mg
Adrenal	20 mg
Vitamin B6 (pyridoxine HCl)	15 mg
Vitamin B1 (thiamin HCl)	15 mg
Vitamin B2 (riboflavin)	15 mg
Pituitary	10 mg
Parotid	2 mg
Selenium	20 µg
Folic acid	200 µg

All glandulars are of bovine source from New Zealand.

Tableted with:

Dicalcium phosphate
Vegetable fat
Microcrystalline cellulose
Polyvinylpyrrolidone
Silicon dioxide
Stearic acid

Features:

Contains tissue concentrates of ovary, adrenal, pituitary, and parotid, which work synergistically together to help support the female reproductive system.

The B vitamins niacin, riboflavin, thiamin and folic acid help to maintain skin and nervous tissue integrity and help utilise energy more efficiently.

Vitamin E plays an important role as an antioxidant.

Selenium is an important antioxidant and also plays an important role in the female endocrine system. Levels of selenium in foods have declined in recent years.

Recommendation: 1 tablet daily with food, or as directed.

Caution: Not recommended during pregnancy or whilst breastfeeding.

Product Code: 3500

Package Size: 60
