UltraClear Plus pH™

V

Alkalisising Metabolic Clearing Programme

UltraClear Plus pH™ is a naturally pure, patented powdered mix for the support of metabolic clearing in the liver, aimed specifically at individuals who have imbalanced Phase I and Phase II activity and would benefit from an alkalisising formula.

Features:

Provides the same great macro- and micronutrient base formula benefits as UltraClear Plus™, with extra alkalising potassium.

Imbalanced metabolic clearing may be due to genetic predisposition, a history of chronic nutrient insufficiency, and/or excessive exposure to toxins, which can result in a build up of reactive oxygen intermediates.

Features added glycine, taurine, sodium sulphate, sesame flour and catechins from decaffeinated green tea to better support Phase II activities.

Comes with a comprehensive Patient Guide for complete programme guidelines (also available on Nutri website).

Recommendation:

Blend, shake or briskly stir 2.5 level scoops into 8 ounces of water or juice.
