Sterol 117™

Plant Sterol Formula

Sterol 117™ contains plant sterols, pine bark antioxidants and an essential fatty acid complex, to support healthy immune and cardiovascular systems. The active ingredients also provide support for joint health and male urinary health.

Ingredients:

Each capsule typically contains:

Total Phytosterols	300 mg
Plant Phytosterols	183 mg
Beta Sitosterols	117 mg
Cellasate™*	50 mg
Enzogenol™**	20 mg

* Proprietary essential fatty acid complex. ** Proprietary antioxidant complex from pine bark.

Other ingredients:

Rice Flour
Capsule shell (vegetable cellulose)
Enteric coating (derived from carrageenan)

Features:

Support for atopic individuals and overactive immune systems.

Delivers 300mg of phytosterols per capsule, which can help support healthy cholesterol levels.

Cellasate™ is a blend of fruit oils, seed extracts and essential fatty acids to increase the bioavailability of the nutrients contained in Sterol 117.

Enzogenol™ is an aqueous pine bark antioxidant, rich in flavonoids, derived from the New Zealand "Pinus Radiata" tree using pure water for immune support.

Recommendation:

1 capsule daily on an empty stomach, half an hour to one hour before a meal, or as directed. As fat inhibits the absorption of beta sitosterol, capsules should be taken with juice or water and not milk or drinks containing fat.

Caution:

Must not be taken by organ transplant recipients. Not suitable for individuals on immuno-suppressant medication.
Diabetics should only take the product under the supervision of a healthcare practitioner. Safety has not been established during pregnancy or whilst breastfeeding.

Contains ingredients derived from:

Fish
