Cal Apatite® with Magnesium **High Strength Bioavailable MCHC with Magnesium**

Cal Apatite with Magnesium provides 500mg of purity-certified, calcium-rich MCHC per tablet, with the addition of 100mg magnesium.

Ingredients:

Each tablet typically contains:

Microcrystalline Hydroxyapatite Concentrate (MCHC)*	500 mg
Calcium (as MCHC and dicalcium phosphate)	200 mg
Phosphorous (as MCHC and dicalcium phosphate)	126 mg
Magnesium (as citrate**, bis-glycinate**, oxide)	100 mg
Vitamin D3 (cholecalciferol) (200 IU)	5 µg

* MCHC is a bovine product of New Zealand, and supplies calcium, phosphorous and trace quantities of other minerals. ** Patented mineral amino acid chelates: US patent #4,830,716 Albion®

Tableted with:

Microcrystalline cellulose
Silicon dioxide
Sodium carboxymethylcellulose
Stearic acid

Features:

Magnesium plays an important role in bone metabolism, with over one-half of the total body stores of magnesium found in bone tissue.

Provides a 2:1 calcium to magnesium ratio.

Magnesium is provided as a blend of bisglycinate and citrate for enhanced absorption.

Features 200 IU vitamin D3 for added bone support.

Recommendation: 1-6 tablets daily, or as directed.

Caution: None known if directions are followed.
