Ultra Probioplex® ND Powder

V

Non-Dairy Advanced Probiotic Nutrition with Fructooligosaccharides

Ultra Probioplex® ND Powder is a patented non-dairy** probiotic supplement featuring highly viable, pure strains of Lactobacillus acidophilus (NCFM™ strain) and Bifidobacterium lactis, along with supportive factors.

Ingredients:

Each quarter teaspoon (0.75g) typically provides:

Lactobacillus acidophilus NCFM® Strain

7.5 billion live organisms*

Bifidobacterium lactis culture

7.5 billion live organisms*

* At date of expiry

Other ingredients:

Fructooligosaccharides (FOS)

Rice maltodextrin

Recommendation:

Mix one-quarter of a teaspoon (0.75g) with unchilled water one to two times daily, or as directed.

Caution:

**Lactobacilli and bifidobacterium probiotic strains consume soy and milk-derived nutrients as a food source during an early fermentation step. Individuals with a severe intolerance to soy or milk should not take this
