

Product Information Sheet

Immune Support

Iso D3™

Vitamin D3 with Isoflavones

Iso D3™ delivers 2000IU of the preferred form of vitamin D, as D3 (cholecalciferol), in each tablet. The inclusion of isoflavones may help facilitate the body's utilisation of vitamin D3.

Ingredients:

Each tablet typically contains:

Vitamin D (cholecalciferol)	50 µg
Soybean concentrate	64 mg
Total isoflavones (containing all forms of genistin, daidzin, and	25 mg

Other ingredients:

Microcrystalline cellulose
Stearic acid
Cellulose
Sodium starch glyconate
Silica
Modified cellulose coating
Silicon dioxide

Features:

Vitamin D has a multitude of biological functions in the body which may help to support cellular health, healthy immune function, healthy inflammatory processes, as well as supporting bone health.

Vitamin D3 (cholecalciferol) is the preferred form of supplemental vitamin D as this is the form produced by the skin in response to sun exposure.

Soy isoflavones may be a useful support for healthy bone, cardiovascular and hormonal health and work well in combination with vitamin D3.

Recommendation: 1 tablet daily with food, or as directed.

Caution: Not recommended during pregnancy or whilst breastfeeding.
This product contains vitamin D at the adult tolerable upper intake level, the maximum daily intake unlikely to result in adverse effects in the most sensitive individuals.

Contains ingredients derived from:

Soy
