Gastrointestinal Support

Berberine & Grapefruit Seed

V Ve

Broad Spectrum Herbal Formula with Standardised Extracts of Berberine & Grapefruit Seed

Imbalanced micro-flora populations can alter the nutrient status, immune response, or detoxification capacity of the host, interfering with overall health. This Berberine & Grapefruit Seed formula has been specifically designed to support a healthy intestinal environment.

Ingredients:

Each capsule typically contains:

Berberine sulphate	100 mg
Grapefruit seed extract (Citrus grandis)	100 mg
Gentian Root Extract (Gentiana lutea) 4:1 concentrate	75 mg
Goldenseal root extract (Hydrastis canadensis) (5% Hydrastine)	50 mg
Sweet Annie Aerial Parts (Artemesia annua)	50 mg
Quassia Bark Extract (Picrasma excelsa) 4:1 concentrate	50 mg
Black Walnut, Green Hull extract (Juglans nigra) 4:1 concentrate	50 mg
Garlic Bulb extract (Allium sativum) 0.8% Allicin	50 mg

Encapsulated with:

Magnesium stearate
Microcrystalline cellulose
Natural polysaccharide capsule (UltraCaps™)
Silicon dioxide

Features:

All of the herbs in the formula have been shown to help maintain a balance of micro-flora in the gastrointestinal tract.

Gentian contains very bitter compounds (gentiopicrin and amarogentin) that support normal digestive function.

Garlic contains allicin, a sulphur compound, which may also help to establish microbial balance.

Recommendation:

Take 2-4 capsules three times daily, or as directed.
Alternatively follow this commonly used programme:
Month 1: 2-4 capsules, three times daily, every other day.
Month 2: 2-4 capsules, three times daily, twice a week.
Month 3: 2-4 capsules three times daily, once a week.

Caution:

Not recommended during pregnancy or whilst breastfeeding.
Only use in children under age 12 with medical supervision.
