Probiotics

Enterogenic Concentrate

V Ve

FOS & Probiotic Formula

A healthy balance of good bacteria has long been considered to be a cornerstone of good intestinal and immune health. This formula concentrates three species of highly beneficial bacteria with fructooligosaccharides (FOS), their preferred fuel for growth and development. Contains over 1.9 billion beneficial probiotic organisms per capsule.

Ingredients:

Each capsule typically contains:

Fructooligosaccharides	500 mg
Probiotic blend providing:	130 mg*
Lactobacillus acidophilus (9%)	
Bifidobacterium bifidum (13%)	
Lactobacillus rhamnosus (78%)	
Vitamin C (as ascorbyl palmitate)	15 mg

* Minimum concentration approximately 1.9 billion viable organisms per capsule at expiration date when maintained below 72 degrees F.

Encapsulated with:

Gelatin

Features:

<<ITon>>Lactobacillus acidophilus<<IToff>>, <<ITon>>Lactobacillus rhamnosus<<IToff>> and <<ITon>>Bifidobacterium bifidum<<IToff>> are probiotics, or "friendly bacteria", which promote a healthy intestinal environment, supporting good digestion, and healthy immune function.

<<ITon>>Lactobacilli<<IToff>> and <<ITon>>Bifidobacteria<<IToff>> maintain a healthy balance of intestinal flora by producing organic compounds - such as lactic acid, hydrogen peroxide, and acetic acid - that increase the acidity of the intestines and help maintain a favourable intestinal environment.

They may be especially useful following antibiotic use to re-establish a normal balance of intestinal flora.

Fructooligosaccharides are short-chain polysaccharides and preferred food for beneficial bacteria, supporting their growth and health. Enterogenic Concentrate uses 100% pure FOS derived from chicory

Recommendation: 2-4 capsules one to two times daily, or as directed.

Caution: None known if directions are followed.
