(1) By United States Pharmacopeia (USP) XXIII method (2) By Food Chemicals Codex (FCC) IV method (3) By USP XXI method (4) By FCC III method

Encapsulated with:

Microcrystalline cellulose
Natural polysaccharide capsule (UltraCaps™)

Features:

Echinacea, St John's Wort, Astragalus, Ligustrum, and Shiitake all support the healthy responsiveness of the immune system.

Yellow Dock has a powerful cleansing effect and its bitter principles support normal liver function.

Digestive enzymes help support the body's critical digestive functions, even during times of illness.

Recommendation: 2-4 capsules between (or after) meals, or as directed.

Caution: Not recommended during pregnancy or whilst breastfeeding; for individuals with ulcer or gastritis; or for individuals with autoimmune disease.
Long term use of Echinacea is not recommended as the body's responsiveness to Echinacea diminishes over time.
St John's Wort may affect the way your body metabolises other medications - check with your medical doctor if you are taking other medications.
