Ester-C® Calcium Ascorbate with Bioflavonoids

Esterol is a highly absorbable vitamin C-bioflavonoid mixture. It contains Ester-C®, a patented, non-acidic mixture of ascorbic acid containing other clinically significant metabolites. Esterol also contains three types of bioflavonoids: rutin, quercetin and proanthocyanidins.

Ingredients:

Each capsule typically contains:

Ester-C® (ascorbate)	675 mg
Calcium (ascorbate)	62.5 mg
Rutin	50 mg
Quercetin	25 mg
Proanthocyanidins (Grape pip)	2.5 mg

Encapsulated with:

Vegicaps® (vegetable cellulose, glycerin, silicon dioxide & water)

Features:

Ester-C® and calcium ascorbate are highly absorbable forms of vitamin C.

The bioflavonoids quercetin, rutin and proanthocyanidins (from grape pips) have demonstrated potent antioxidant activity and potentiate the antioxidant activity of vitamin C.

Ester-C®, being a non-acidic form of ascorbic acid, is an ideal supplement for those wishing to take larger quantities of vitamin C, or for those who are sensitive to acid-containing foods.

Recommendation: 1-2 capsules twice daily with meals, or as directed.

Caution: None known if directions are followed.
