Nutri's Instant Expert conference calls have been overwhelmingly successful. You can learn how to treat a specific condition, from the comfort of your own home or office, in just 1 hour.

Technology is changing though and rather than continue the Instant Expert schedule using conference calling, we have decided to switch to a webinar format. This means you listen to the live presentation and view the slide show simultaneously via your computer.

You don't need any fancy equipment or software - just a computer and Adobe Flash Player 10 (which we will instruct you on how to download).

All webinars will take place from 10am-11am, but don't worry if you can't attend the live event. As long as you have booked your place you will be sent a link to the recording which you can keep for as long as you like.
