

Eskimo® Brainsharp

Pure & stable fish oil with GLA and CoQ10

There has been a sharp increase in baby boomers concerned about cognitive function and mental health. With the older adult in mind, Eskimo Brainsharp is the ideal choice to lend natural support to the brain.

- Contains all the well-known benefits of Eskimo-3 fish oil with the addition of CoQ10, omega-6 & -9, and vitamins D & E
- Eskimo Brainsharp is a unique combination that provides a powerful punch of omega oils and antioxidants, and is an excellent choice for supporting healthy cognitive and memory function
- Available in capsules or liquid formulations.

Eskimo® Skin Care

NEW

Pure & stable fish oil with extra GLA to support skin health

Everyone wants soft, supple fresh-looking skin. Eskimo Skin Care is based on the latest research and has been developed to support the skin's normal functions in a totally natural way.

- Contains all the well-known benefits of Eskimo-3 fish oil with the addition of evening primrose oil (GLA), vitamin D and the antioxidant blend, Pufanox for potent antioxidant protection
- Omega-3 fatty acids help to keep skin supple and elastic and support the health of hair and nails too
- Ideal for all adults requiring support for healthy skin.

Eskimo® Kids

Children's pure & stable omega-3 fish oil with GLA and vitamin D

"Tastes so good they'll even lick the spoon!"

Today's parents know that their children need more than just a multivitamin to support their health. Because a child's brain and nervous system have different fatty acid requirements whilst growing, Eskimo Kids has been specifically formulated to reflect these needs. Omega fatty acids are ideal support for the health, brain function and all-round ability of kids, helping them to achieve their full potential at school!

- Specifically formulated to give children the right balance of omega oils
- Eskimo Kids features the same pure & stable omega-3 fish oil as Eskimo-3, together with omega-6 & -9, and vitamin D for specific support for kids
- Contains vitamin D, essential for healthy bone development
- Available in great tasting tutti-frutti or natural orange flavour that kids just love!

Little thinkers choose Eskimo Kids!

Nutri Information Guide

Eskimo-3 Fish Oil

Are you missing the essential ingredient to your health?

To ensure good health it is essential that you obtain enough omega-3 fatty acids from your diet each day; but are you getting enough?

The Importance of Omega-3s

To ensure good health it is essential that you obtain enough omega-3 fatty acids from your diet each day; yet if you are like most people you are not getting as much as your body needs. The average person in the United Kingdom consumes less than half the recommended amount of omega-3 from oily fish each day, and only 1 in 4 people consume any oily fish at all. However, like vitamins and minerals it is essential to your health and wellbeing that you get enough omega-3 each and every day.

Taking a daily fish oil supplement, naturally rich in omega-3, can support your heart, brain, joints and skin and is a simple way to safeguard your health. However, not all fish oil supplements are created equal and when it comes to your health only the best will do.

Eskimo-3 Fish Oil

The Eskimo-3 range provides omega-3 rich fish oils which are pure, fresh, safe and effective, and are the ideal way to support the health of your whole family.

Eskimo-3 was inspired by the original research into the outstanding heart health of the Eskimos who, despite consuming high amounts of fat, have exceptionally good cardiovascular health. Researchers found that this was because the fat they were consuming (from fish and seafood) was rich in the now-celebrated omega-3 fatty acids.

Eskimo-3 is safer

Fish oil easily turns rancid during manufacture and storage which may reduce the effectiveness and safety of the oil. The Eskimo-3 range uses a unique patented process that ensures the oil is fresh, stable, effective and safe.

Eskimo-3 is more effective

Because of the unique process that ensures the freshness and safety of Eskimo-3 fish oil, it is also more effective. Research has shown that Eskimo-3 fish oil may be more effective than plain fish oil and may be a superior way to support heart, brain and joint health.

Eskimo-3 is toxin free

Environmental toxins accumulate in fish, and unless removed will concentrate in fish oil. Eskimo-3 fish oil undergoes an extensive purification process to ensure it is toxin free, and independent studies have consistently shown that Eskimo-3 is one of the purest fish oils available.

Eskimo-3 is supported by science

More than 100 scientific articles have been published in leading medical journals worldwide demonstrating the effects of Eskimo-3 fish oil and the Eskimo-3 range of products. This high level of scientific research is testament to the quality and safety of Eskimo-3.

Eskimo-3 is ethically and sustainably sourced

Over-fishing is becoming a serious threat to the world's fish stocks. Eskimo-3 fish oil comes from a sustainably managed fishery, so not only is Eskimo-3 good for you; it is good for the environment and our future.

Support for the Whole Family

Eskimo-3 fish oils really are the ideal way to support the health of your entire family. From toddlers and teens to the oldest member of the family, everyone can experience health benefits by using it as a daily supplement

- Provides the essential omega-3 fatty acids EPA and DHA, which are often lacking in those who rarely eat fish
- From sustainable sources of fish living in the clean, unpolluted waters of the Pacific Ocean and fished off the coast of Peru
- Supports cardiovascular health
- Supports soft, supple, healthy-looking skin
- Supports healthy joint function
- Over 60% of the brain is made from fat! Eskimo-3 helps to support healthy brain function in kids and adults.

Eskimo-3®

Pure & stable omega-3 fish oil

The original unbeatable formula

Nutri's Eskimo-3 represents probably the finest quality fish oil on the market, providing omega-3 rich oil of legendary purity, freshness and stability, from sustainable sources, and full traceability from fishing boat to finished oil.

- Provides a healthy source of the omega-3 fatty acids EPA and DHA in their naturally-present concentrations
- Supports healthy circulation, joints, skin, and brain function
- Natural fish oil from sustainable sources of deep-sea fish
- Enriched with antioxidants for incredible freshness and stability – meaning no fishy odour or aftertaste
- Free from contaminants – Eskimo-3's purity is second to none
- Safe for use in pregnancy and whilst breastfeeding
- Available in capsule or liquid form, with a pleasant citrus flavour
- One of the most extensively researched and documented omega-3 supplements in existence!

Eskimo® High Strength 3:2

NEW

Extra high strength pure & stable omega-3 fish oil

- Provides all of the amazing benefits of standard Eskimo-3 but in a higher strength formula
- Ideal for those who want to take fewer capsules.
